## ABOUT THE PROGRAM

CompTIA Security+ is the globally trusted certification for introductory, vendor-neutral cybersecurity knowledge and skills. This certification covers essential network security and risk management principles which are used in every environment, making it a foundational necessity for a career in cybersecurity. Topics are developed and maintained by a team of subject matter IT experts.

The CompTIA Security+ certification meets the ISO 17024 standard and is approved by the US Department of Defense to fulfill Directive 8570.01-M requirements. It is also compliant with US government regulations under Federal Information Security Management Act (FISMA).

Successful completion of this certification will demonstrate the IT professional has expanded knowledge and abilities to establish and maintain a secure work environment, supporting the principles of confidentiality, integrity, and availability.

CompTIA (The Computing Technology Industry Association), is a non-profit trade association, which provides training and professional certifications for the information technology industry. CompTIA is the voice of the world's (IT) Information Technology industry.
