

CYBER MOUNTAIN

COLORADO SPRINGS

PROTECTING AMERICA'S ACCESS TO SPACE

VIRTUAL FIRST FRIDAY CYBERSECURITY SOCIAL & MIXER FOR MARCH!

JOIN THE COLORADO SPRINGS CYBERSECURITY COMMUNITY FOR SOCIALIZING & NETWORKING

Connect with local cybersecurity professionals for a casual gathering the “First Friday” of every month beginning at 4 p.m. Join cyber peers to share information and learn about the growing cybersecurity ecosystem in Colorado Springs. No cost to attend.

Our special guest this month will be Joshua Pace. Joshua is a telecommunications specialist (and 5G guru) with the Office of Innovation for the city of Colorado Springs. He will be presenting on the city’s plan for 5G deployment. We’ll also have a presentation from Shawn Murray on Mac OS Malware “Silver Sparrow.” Viruses aren’t all that common in Macs, but one recently discovered by researchers has people scratching their heads! According to Malwarebytes, it has infected 29,139 Macs across more than 150 countries worldwide. Finally, we’ll have breakout rooms so you can network and socialize with other attendees.

March’s Cybersecurity First Friday will be held on-line using Zoom. To attend, please register at the following [link](#).

Friday,
March 5th
4 to 6:00 P.M.

On-line via zoom
